HIGH TECHNOLOGY ENCLOSURE SOLUTIONS

PRODUCT DATA SHEET #7001

TELECOMMS PRODUCTS - MAIN DISTRIBUTION FRAME PRODUCT INTRODUCTION.

Overview.

A high density single vertical frame, for mounting Krone style modules. Two or more can be mounted back to back, or side by side to create the desired size of frame. The frame can also be fixed directly to a wall. The back mount frame is made of stainless steel to facilitate a good earth connection in case over voltage protection is required.

Current Frame sizes available:-

- ❑ 300mm, 600mm and 750mm wide x 2200mm High
- ❑ 300mm wide has 1 vertical.
- ❑ 600mm wide has 2 pairs of verticals.
- ❑ 750mm wide frame has 4 pairs of verticals.

Features of WQ frames:-

- ❑ Suitable for floor or wall mounting.
- ❑ Top or bottom cable entry.
- ❑ Plastic coated cable friendly cable management.
- ❑ Front mounted label holder included.
- ❑ Light grey paint finish, custom colours available on request.
- ❑ Frames can be mounted back-to-back and side-to-side.
- ❑ Top cable management panel options.
- ❑ Type 43, Krone 237A, Lucent 110 frames are also available mounted in the WQ Access rack complete with lockable glass/steel doors and side panels.
- ❑ 90 Krone 237A modules per vertical.

Other Frames are available for:-

- ❑ Type 43 75 ohm Coaxial Connectors (See left-hand picture).
- ❑ Or mixture of both Type 43 and Krone 237A (See right-hand picture).
- ❑ Other Connector Frames made to order.
